Let's hear a little
commotion for the
heart of the home

Words Miriam Methuen-Jones

Searching for **bespoke on a budget**? Take a look at Hølte. The studio creates hand-finished fronts that seamlessly fit cabinets from Ikea and Howdens. Shown here are fronts from the One Collection in tones of **honey and pale blue**. Powder-coated **slim handles** keep things cool and crisp. [hølte.studio](#)

The owner of this Georgian country house is **an interior designer and a keen cook**, so the kitchen was always going to be something special. A collaboration with Middleton Bespoke resulted in **a peaceful space** filled with **custom cabinetry** (painted in Little Green's Rolling Fog). [middleton-bespoke.co.uk](#)

There's a lot going on in this Neptune kitchen, but what draws the eye immediately is the hefty **butcher's block** on the multi-level island. **Zoning** has been used carefully (varied flooring, statement pendant, tiled hood) but a **bold colour** on the cabinetry helps to connect the dots. Not sure if you've noticed, but we've currently got a thing for **chartreuse**, so we're particularly fond of this zesty kitchen by Cor Domi. The owner wanted something warm and durable, **not a show kitchen**. Deep drawers, cabinets up to the ceiling, **natural materials**: this space looks good and works hard. cordomi.co.uk

Zoffany's Faded Rose paint is the star of the show in Nigel Hunt's Cotswolds cottage kitchen. A slim Everhot oven is ideal for such a petite space, while **rooflights in the eaves** create a bit more headroom. Even small spaces deserve a kiss of luxury: here, it's **Arabescato marble** and brass wall lights. huntreay.com

The body of this kitchen is made from **birch plywood**, with oak veneer and a **solid oak frame**. Wall cabinets were ditched in favour of a low run, allowing natural light to bounce around the space. **Terrazzo surfaces** add to the understated midcentury-modern feel. Wood & Wire, a small team of Yorkshire craftspeople, is behind the award-winning scheme. woodandwire.co.uk

A **copper hood**, vibrant green paint, **botanical wallpaper** and a window seat? Must be heaven. The oven hood in question was crafted from a vintage fireplace cover, and the seat stretches into a **robin's-egg-blue banquette** for the dining table. This space belongs to interior designer Pandora Taylor. pandorataylor.co.uk
